No, it's not all really hot! 😊

We make our food using chillies that are full of
flavour, not heat. For example-

Pasilla/Chilaca - Mild

Rich, earthy and sweet with a hint of smoky
cocoa. A very meaty texture.

Ancho/Poblano - Mild

A sweet, mild and smoky flavour.
Texture like raisins.

Guajillo/Mirasol - Mild

A leaner chilli, fruity & smoky with a
slight cranberry tang.

However! If you like it hot, we have a shelf full of sauces
imported from Mexico that are bound to blow your head off!
