

About Ceilidh/ Our Ethos

We believe in no frills value. We don't have special offers just old fashioned day to day quality and service. With this in mind we keep costs to a minimum and preserve our beautiful environment by reducing waste and recycling wherever possible. To achieve this aim we use natural or eco-friendly cleaning products from **Wikaniko**, energy saving lighting. We have inserted **water hippos** into each cistern and installed water & energy saving **Eco-camel** shower heads to all our showers

Please support us by:

- *Leaving your waste basket unsealed, so we can recycle its contents.*
- *Save energy by turning off lights & electrical equipment when not in use*
- *Save water by indicating when fresh towels are required by placing them in your shower tray.*

We are also committed to supporting our local area and purchase from local business, to ensure your breakfast is tasty and traceable:-

We have regular doorstep deliveries of meat products from **Clarke butchers**, milk & butter from **Grahams Dairy** & free range eggs from **Allaburn Farm**. Our bread comes from **Smillies**, and our fish is from our neighbour **SJ Edwards fish merchant**. The yoghurt is homemade and the jam &

marmalade we serve are made locally raising funds for cancer charities. The teas and coffee we serve are **Fairtrade** and the shortbread on your hospitality tray is from **Deans of Huntly**.

To limit food waste we cook to order so if you have special dietary requirements or just fancy something other than a traditional Scottish breakfast, please let us know in advance. So we can try to source and prepare it for you.

We purchase our contract furniture from **Dovetail Enterprises**. They provide employment for ex service personnel, and people with disabilities. You will be sleeping on a **Blindcraft** mattress like William and Katherine our Royal newlyweds, allowing you to sleep soundly on excellent quality furniture with a conscience. Other furniture & fittings are purchased from **Grampian furnishers** here in Lossiemouth to ensure you have quality with a homely feel.

"Ethical Policy:-When Royal Dundee Blindcraft Products and Lord Roberts Workshop combined to form Dovetail Enterprises, they brought with them three attributes which they had followed in parallel for many years:

- *strong interest in catering for men and women with disabilities*

- *skills in woodworking and furniture manufacturing*
- *a pursuit of quality workmanship and products*

Dovetail Enterprises knows it must continue to promote these ideals as it wants to maintain its place as a serious player in a

very competitive marketplace. “
